Geopathic Stress Reduction and The Light-Life Tools

Workshop with
Scott Anderson
and
Katharina Spurling-Kaffl

Oct. 9 - 11, 2026
Erie, Colorado

Join us this Fall for our Dowsing and Light-Life Tools Workshop

Why? Because geopathic stress is one of the unseen forces that can harm many areas of your life, e.g. they can negatively affect your health, finances, relationships, and more. Geopathic Stress occurs when the Earth's electromagnetic field becomes distorted. This distortion causes stress within our bodies because of the magnetic energy produced from these irregularities.

Most common symptoms of Geopathic Stress:

- Exhaustion and insomnia
- Resistance to medical treatment
- Headaches that can occur upon awakening
- Nervousness about various situations
- Infertility
- Sudden infant death syndrome {SIDS)
- Allergies not normally experienced
- Behavioral changes

Do any of these resonate with you?
Have you tried almost everything,
and nothing seemed to help?

It's time to check for Geopathic Stress.

Slim Spurling was a scientist, artist, inventor, and internationally renowned dowser. With his knowledge, he invented a simple method to detect and neutralize geopathic stress zones and the Hartmann grid. This method is successfully used by thousands of students worldwide. In 1991, Slim developed the first Light-Life Tensor Ring, which became the basis for the Light-Life Technology known worldwide today. Learn more about Slim Spurling at www.SlimSpurling.com.

Scott Anderson retired from a local private country club, where he spent 40 years as a superintendent. He was trained by Slim Spurling in 2006. He has been interested in alternative healing methods, organics, earth energies, electromagnetic fields, and the phenomenon of Light-Life Tools since he bought the first Light-Life Ring in 2005 and had remarkable results with it. With his wife Susan, he has cleared many houses and businesses of geopathic stress, using the Slim Spurling Method.

Katharina Spurling-Kaffl is the wife of the late Slim Spurling and President and CEO of IX-EL, Inc. (dba Light-Life Technology). She has taught seminars and workshops in Europe, South America, and the USA, training participants to activate their self-healing powers.
Katharina learned about the Light-Life Tools before she met Slim Spurling, and she was very impressed by their powerful applications. She committed to helping Slim get them out into the world. She and Slim married in 2001, and together they created many more Light-Life® Tools.

Since Slim's passing in 2007, she has carried on his legacy and enthusiastically continues his teachings, manufacturing the current Light-Life Tools and creating new ones. In 2008 Katharina and Scott started teaching Slim's workshops. Katharina also independently teaches applications of the Light-Life Tools to bring more harmony and balance to individuals and our environment.
